

Yoluve

A Universal, Portable, App User Platform. Yoluve Features Blockchain Technology Plus A Stable Token Called Yoluve For Apps, Other Platforms, Applications, And Services Accepting Yoluve Tokens.

Make Transaction's Actions Easier

We Noticed

Consumer's, businesses, and entrepreneurs are faced with frictions and difficulties when it comes to making and accepting transaction's online.

Slows e-commerce sales and service.

How We Help

Utilizing software, blockchain, and best practices.

- We can widen a deep passage, customer's, business es and entrepreneurs can benefit.

Result

Delivering a platform where all users can transact accepting and making transaction's with ease.

Yoluve is only limited by the creativity of the apps on the platform and token ecosystem.

Progression

Developing

For Users

Putting the users first we are developing a easy to use platform based on Transaction's, inputs, outputs, purchases, sales, tips.

Apps can use Yoluve.

Launching

With Existing Users

An existing base model helped gain early adopters.

- Launching with a modest startup userbase helped workout early bugs.

Success

Increase Over Time

As we continue to grow we look to collaborate with possible partners and app creators promoters and more.

Solution

Help Connect Everyone

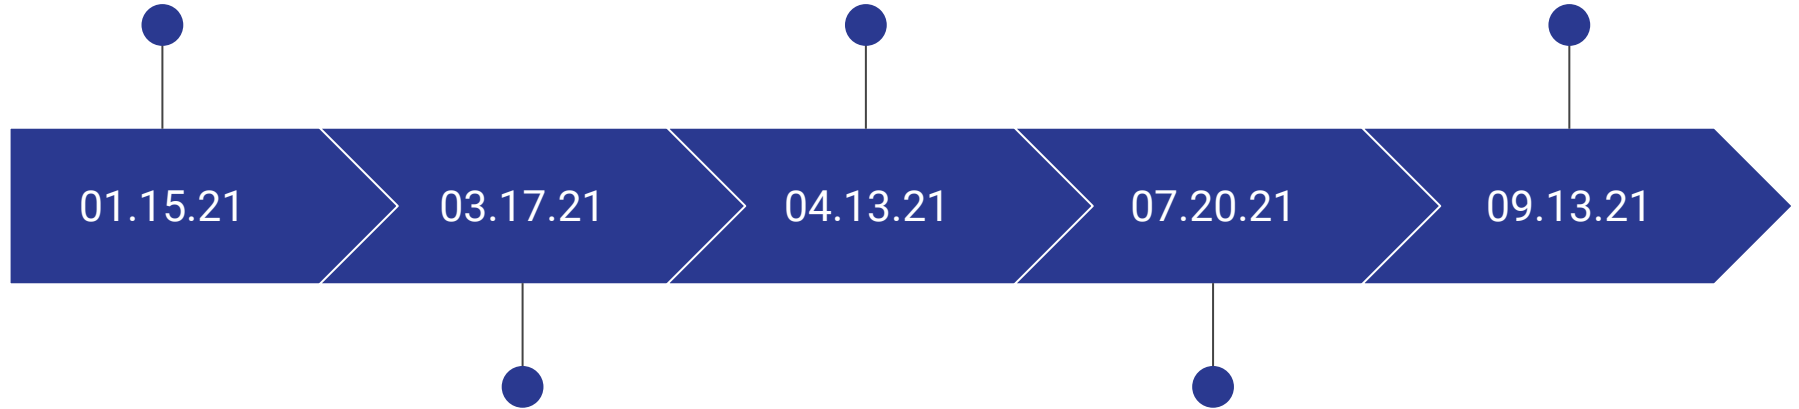

Research, Build, Market, Reward,
Repeat.

Implementation

Official Platform
launch w/ 24 pre
installed apps.

Release of Computer
Luv And Digital Love
Rewards Tokens.

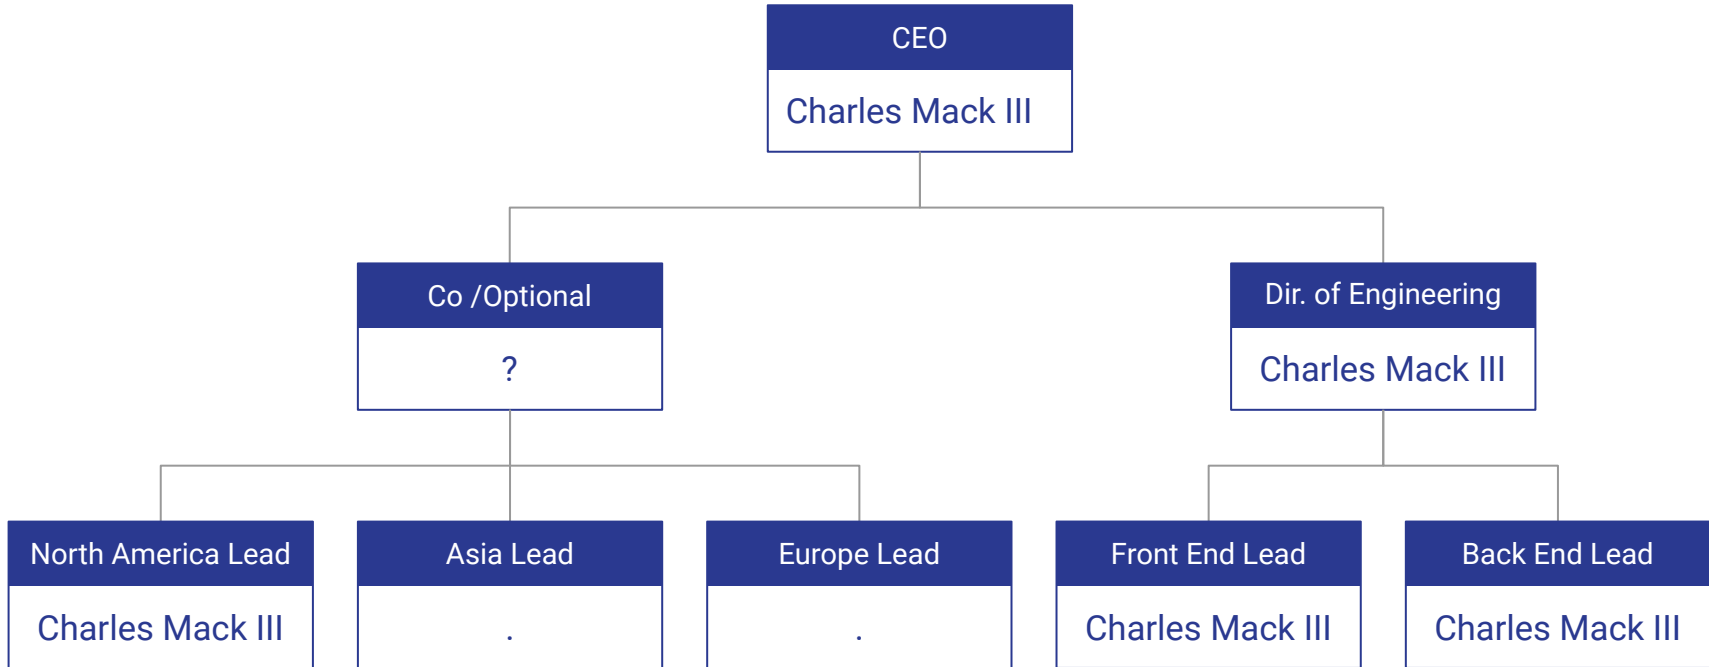

Instant deposits and
withdrawal's,
Decentralized

New! Circles social
growth tip earn app
launch.

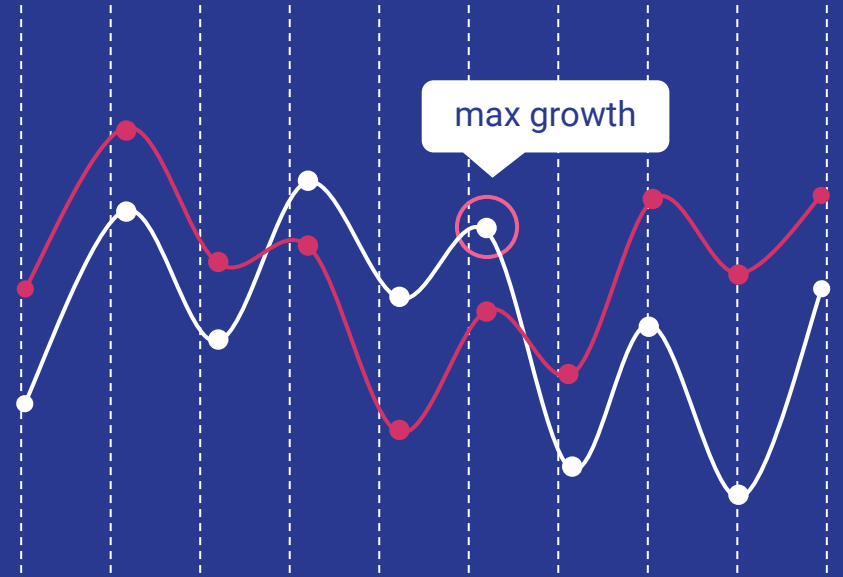

Migrating to Dapp
Code Base
